Tenth Anniversary Noted By Cooperative Nursery

The Torrance Cooperative Nursery School celebrated its 10th anniversary Thursday evening with a buffet supper, looking back to the time in 1952 when the school was founded to serve the needs of pre-school children. It was the consensus that the school offers excellent guidance and facilities for this purpose. The organization has set up a program which is not intended just for the children, a spokesman said in commenting on the 10 years of service. It

also provides a course for parents in understanding their children, it was explained. Since the education of parents is one of the prime objectives of the school, it is operated under the direction of the Adult School of the Torrance Unified School District. This fact makes the school unique in that it is the only nursery school in Southern California which is supported by both parents and a school district. Dr. Leon Wallace, local psy-

chiatrist, presented his third and concluding lecture in a series during the Thursday evening gathering. His topic Thursday was "Love—Its Meaning and Effect in the Family." The series has covered the broad spectre of family relations. The Torrance Cooperative Nursery School is located at 4558 W. 182nd St.
